Significant State Activity

Red Bridge Fire (Uintah County, Uintah and Ouray Reservation) started on 4/23/23 is currently estimated at 465 acres is 90% contained. Federal resources are working on final containment and cleanup. [Incident 209]

Active The State of Utah has [declared a State of Emergency](#) due to flooding, expiring 5/18/23.

Other Immediate Concerns

- **Active** Current flood risk is spring runoff, increasing streamflows, and snowmelt. Some reported flood-related landslides being monitored.
- UDOT is monitoring roadway bridges and structures that may be more susceptible to high water flows, due to design or existing conditions, partners should keep an eye out for the following:
 - Embankment slopes are still in place around abutment and the approach roadway to the structure to ensure the water has not washed out the embankment supporting the roadway.
 - Significant settlement of the bridge.
 - The upstream opening or channel directly upstream does not have any debris caught on the structure or any that can impede future flood water flowing through the structure or reduce the waterway.
 - Debris or mud on the top of the structure that suggests the water overtopped the structure.
 - Any other part of the bridge that looks off or different than what you are used to.

TLP: WHITE

Disclosure is not limited.

Current State (SERT) Actions

- The Division of Emergency Mgmt. continues to provide media engagement and media coordination with other partners, in order to provide emergency public information as needed to the flood response efforts.
- **Active** The State EOC is now at Activation Level 2-Partial Activation.
- **Active** Activated Emergency Support Functions: ESF #1, ESF #5, ESF #14, ESF #15, Logistics, VDCT, and Finance.

Current Operational Requests

- 11 active requests are in progress regarding State sandbag resources, management of State volunteers, additional SEOC staff, other flooding response resources, and for information regarding ability to assist with flooding from USACE. 1 active requests for sandbags has been assigned and 1 active request is pending additional information for flooding response. *[WebEOC]*

Region 1

Davis County

- **Active** Kaysville City has [declared](#) a local emergency due to significant runoff damage in the Orchard Ridge Division, expiring on 5/19/23.

Rich County

- A few small landslides on the east side of Bear Lake have been reported, but no impacts yet.

Morgan County

- **Active** Morgan County [declared](#) a local emergency related to flooding, expiring on 5/18/23.

Region 2

Salt Lake County

- **New** DEM, and UDOT will be coordinating with Salt Lake County Emergency Management, Flood Control, and Public works engineers on evaluating options for a water diversion project in Big Cottonwood Canyon tomorrow.
- **Active** Draper City - Due to current hillside conditions, Ann's Trail is being closed to public use. People should be aware to stay clear of the trail due to dangerous conditions and not circumvent the closure notices.
- **Update** On Saturday morning, April 22nd, a landslide occurred on Springtime Road in Draper, Salt Lake County. Two homes (that were evacuated in October 2022 due to unstable ground conditions) collapsed as the hill they were on slid and fell into the small ravine below. The homes were vacant and others nearby are being evaluated.
- **Active** Millcreek [declared](#) a local emergency related to flooding, expiring on 5/13/23.
- **Active** Emigration Canyon [declared](#) a local emergency related to flooding, expiring on 5/12/23.
- **Active** Salt Lake County [declared](#) a local emergency related to flooding, expiring on 5/13/23.
- **Active** Salt Lake City [declared](#) a local emergency relating to flooding, expiring on 5/12/23.

Wasatch County

- **New** DEM, UDOT, and UTNG are supporting Heber City in evaluating options for a water diversion project.
- **Past** A tanker truck's pup trailer overturned carrying approximately 2000 gallons of diesel fuel on SR 40 at MP 37. An estimated 947 gallons was spilled and was contained at the scene, with the remaining fuel offloaded. Clean up crews are on scene. The responsible company is actively involved in supporting the cleanup and response efforts.

Region 3

Juab County

- **Active** Juab County [declared](#) a local emergency related to flooding, expiring on 5/17/23.

Millard County

- **Active** Millard County has extended their [declaration](#) for upcoming flooding to 8/31/23.

Region 4 - Reports of rising rivers and streams but are below flood stage. All counties are monitoring stream flows. With the rising temperature this weekend, higher flows are expected, but no flooding events are anticipated.

Washington County

- **Active** Washington County [declared](#) a local emergency related to flooding, expiring on 5/19/23.

Region 5 - Emergency Managers are continuing with sandbag efforts & outreach with communities. Sandbags are available in each County location. Bi-weekly meetings are being conducted to discuss potential flooding concerns and continued planning efforts.

- No significant updates to report at this time.

Region 6/7 - Preparedness and sandbag messaging continue. All counties anticipate temperatures from now until May 2, 2023 that may lead to potential flooding events.

San Juan County

- Update Higher flows have been reported on river areas and streams. They are reporting some flooding in roadways and near subdivisions in poor drainage areas.

Tribal Nations

- The Utah Tribal Emergency Response Committee (UTERC) meetings with the Tribal Nations continue on a bi-weekly basis.
- No significant updates to report at this time.

Impact and activity information is provided by Local Emergency Management partners, the State Emergency Response Team (SERT), and private and non-profit partners through various coordinating communication channels. This is a developing situation, and information may quickly become outdated. Additional situation reports may be made as verified information becomes available.

WEATHER

WEATHER RISK OUTLOOK

Risk levels incorporate potential impacts from weather hazards and likelihood of occurrence for a reasonable worse case scenario.

	Wed 4/26	Thu 4/27	Fri 4/28	Sat 4/29	Sun 4/30	Mon 5/1	Tue 5/2
Northern Utah and Uinta County, WY				Snowmelt	Snowmelt	Snowmelt	Snowmelt
Central Utah				Snowmelt	Snowmelt	Snowmelt	Snowmelt
Southern Utah			Snowmelt	Snowmelt	Snowmelt	Snowmelt	Snowmelt

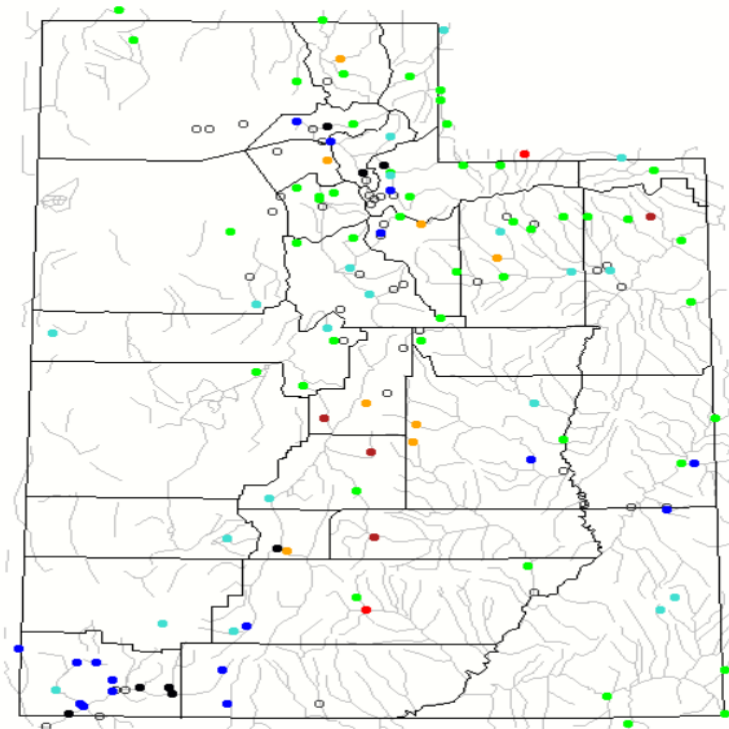

This forecast is accurate as of 4/26/23 at 0600

For a more detailed forecast, click [here](#).

- A significant warming trend will increase snowmelt and result in higher flows on area rivers and streams starting in southern Utah Friday; statewide into early next week.

STREAM FLOW GAUGE MAP
